## **STANJE I STABILIZACIJA POSLOVANJA RUDNIKA UGLJA U SASTAVU JP EPBIH**

### **Sažetak:**

*Kako su u periodu 1992. do 2010.godine investiciona ulaganja u ZD rudnike uglja bila neznatna, te kako bi se obezbijedio ugalj, koji predstavlja osnovni prihod svakog ZD rudnika uglja, JP EP BiH je nakon provedene uspostave koncerna, u skladu sa aktima Vladajućeg i zavisnih društava i zakonima kojiregulišu tu oblast, pristupila donošenju Odluka o dokapitalizaciji ulaganjem u ZD rudnike uglja.*

*Zbog velikih obaveza ZD rudnika uglja prema dobavljačima za osnovni repromaterijal u svakodnevnoj proizvodnji, ostalih obaveza prema državi i kreditnih zaduženja, kao i negativnim poslovanjem, i pored određenih investicionih ulaganja u ZD rudnike uglja od strane JP EP BiH, u periodu 2010.-2015.godina, nije se izvršila konsolidacija proizvodnje, radova na otkrivci i pripremnih radova u jamama.*

### **Ključne riječi:**

*rudnici uglja, Elektroprivreda BiH, stabilizacija rudnika*

## **STATE AND STABILIZATION OF COAL MINES WITHIN PUBLIC ENTERPRISE "ELEKTROPRIVREDA BOSNE I HERCEGOVINE" (JP EPBIH)**

### **Summary:**

*The investments in the coal mines, the dependant companies of the JP EP BiH concern, were insignificant in the period of time between 1992 and 2010. In order to provide coal which produces the basic income in each coal mine, after the establishment of the concern, JP EP BiH has brought the decision on recapitalization by investing in the dependant companies- (ZD) coal mines in accordance with the laws regulating that area.*

*Due to large coal mines' obligations towards suppliers for the raw materials required for their daily production, other obligations towards the state, credit debts and negative business results despite to investmens made by JP EP BiH, there were no consolidation in coal production, overburden and mine preparation works in coal mines in the period 2010-2015.*

### **Key words:**

*coal mines, Elektroprivreda B&H, stabilization of coal mines*
